

## Broadview Station Streetcar Platform Modification

**Timeline:** Starting March 7\*, 2020

\*Content / timeline accurate at time of printing

### What we are doing and why

Starting on Saturday, March 7, TTC crews will begin work to extend the streetcar platform of the inside (south) track at Broadview Station. The modification to the east end of the platform will allow for two low-floor streetcars to occupy the platform together without blocking the sidewalk on Broadview Avenue. This work is being done in advance of the March 29<sup>th</sup> return of streetcars on the 505 Dundas route.

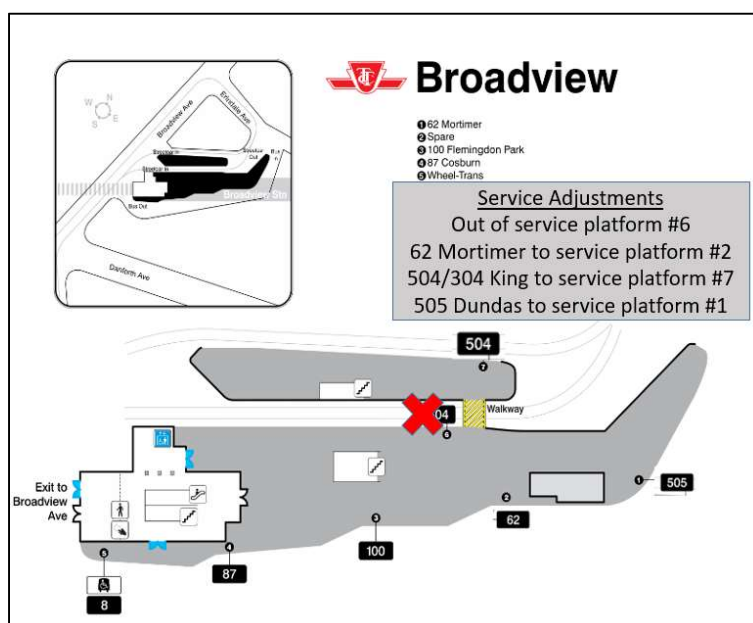

Work during the March 7/8 weekend will focus on concrete removal in preparation for the platform extension, as well as a new walkway between the two existing streetcar track platforms.

All other work associated with this modification, such as some concrete placement, shelter relocation, railing installation, signage will be conducted during weekdays.

### TTC service (March 7/8 weekend)

The following routes will be reassigned to temporary boarding locations. Signage will be posted.

- **504/304 King route**  
The inside (south) track will be closed and 504/304 King streetcars will operate on the north track.
- **505 Dundas route**  
Buses are currently operating on this route and will be reassigned to the bus bay at the east end of the station.
- **62 Mortimer route**  
Refer to map.

### Work hours

- During the March 7/8 weekend, work will take place each day between 7:30 a.m. and 5:30 p.m. and may continue until 9 p.m. in order to complete as much concrete work as possible.
- During weekdays, work will take place between 7:30 a.m. and 5:30 p.m.

### Equipment

Concrete saw-cutter, concrete breaker and chipping power-tools. Efforts will be made by the crew to keep avoidable noise to a minimum.

*Thank you for your patience as we work to improve transit service at Broadview Station.*
